THE MONEY QUESTION

Accumulating money should not be the principal aim of life, nor should it be regarded with contempt, for it represents, to a great extent, the means to physical and mental comforts.

The way in which a man uses money is perhaps one of the best tests of character. The finest qualities of human nature are exemplified in the right uses of money; generosity, honesty, justice and self-sacrifice.

A little self-sacrifice, a savings account with this bank, and a determination to use your money right (saving it) will soon accumulate a snug balance to your credit. START THE ACCOUNT TODAY.
